**DM Staff Notes:** (Note any comments, warnings, concerns or issues with the model)

*Note: All prices include CT Sales Tax*

**3D Model Printing Waiver Conditions:**

- (initial)  1 This model will be billed to my Yale School of Architecture Printing Account. If this is being paid for out of a class or studio budget, then I will need to have the instructor authorize the transfer of funds from your printing account to their school budget after the print has been completed.
- (initial)  2 I certify that this print is for my academic work at the Yale School of Architecture only. I am not permitted to print models for outside professional work unless I have prior written permission from the Dean of the School.
- (initial)  3 I understand the models will be printed on a First Come First Serve basis. (No exceptions)
- (initial)  4 It is my responsibility to make sure the computer model is correct. Models will be printed as submitted. I am responsible for any mistakes in the printed model that resulted from any defects in the computer model.
- (initial)  5 The model that is submitted will be the one that is printed. If the model needs to be changed, then, it will have to be resubmitted and will be placed at the end of the printing queue. It cannot replace the original.
- (initial)  6 I am responsible for proper orientation, scale, position, weight and thin fragile models.
- (initial)  7 I understand all models need to be removed by a Digital Media staff member, except for the powder printer, if a model is removed by someone other than a DM Staff member then a fine will be assessed on a per incident basis. (No exceptions)
- (initial)  8 I understand that the DM staff can give me recommendations on configuration of my model such as minimum thickness and overall model configurations. However, I understand that these are only recommendations based on past experience, and that ultimately I am responsible for all aspects of the final printed model.

I agree to the conditions as stated above:
